

The overall graduation rate is also known as the “Student Right to Know” or IPEDS graduation rate. It tracks the progress of students who began their studies as full-time, first-time degree- or certificate-seeking students to see if they complete a degree or other award such as a diploma within 150% of “normal time” for completing the program in which they are enrolled. The graduation rate reported below is for students who began their studies in Fall 2019.

Some institutions also report a transfer-out rate, which is the percentage of the full-time, first-time students who transferred to another institution. Note that not all students at the institution are tracked for these rates. Students who have already attended another postsecondary institution are not tracked for this rate.
